

1. The first step in the process is to identify the problem or issue that needs to be addressed. This involves gathering information and understanding the context of the problem.

LETTER CARRIERS GOOD ATHLETES

Interesting Program of Events Given At Annual Outing.

An excellent athletic program was presented by the letter carriers about the city yesterday at their annual picnic and outing held at Shattuck Park. The picnic was held under the auspices of the San Francisco Letter Carriers' Mutual Aid and Golden Gate Branch No. 214, National Association of Letter Carriers.

Over 400 carriers and their families were present. The athletic events were held under the direction of the Letter Carriers' Association and good times and distances were recorded. Track and field taken into consideration. Ferguson of Oakland won the letter carriers' race, while H. Hoffman of the Association of this city was also first in the half-mile bicycle race.

Summary:
Track—First heat won by Hoffman (P. A. C.), second, time, 2:12.5. Second heat, won by Hoffman (P. A. C.), second, time, 2:12.5. Third heat, won by Hoffman (P. A. C.), second, time, 2:12.5. Fourth heat, won by Hoffman (P. A. C.), second, time, 2:12.5. Fifth heat, won by Hoffman (P. A. C.), second, time, 2:12.5. Sixth heat, won by Hoffman (P. A. C.), second, time, 2:12.5. Seventh heat, won by Hoffman (P. A. C.), second, time, 2:12.5. Eighth heat, won by Hoffman (P. A. C.), second, time, 2:12.5. Ninth heat, won by Hoffman (P. A. C.), second, time, 2:12.5. Tenth heat, won by Hoffman (P. A. C.), second, time, 2:12.5.

DRY DOCK SITE STILL IS PROVING PROBLEM

WASHINGTON, July 7.—Important conferences are being held at the Navy Department in regard to the Pearl Harbor dry dock, work on which has been suspended for several months following the collapse of the structure.

The preliminary reports received soon after the occurrence indicated the situation grave and that possibly the project would have to be abandoned. Rear Admiral H. H. Stansford, chief of the Bureau of Yards and Docks, and Civil Engineer J. R. Harris of the New York navy yard, went to Hawaii to inspect the work. Admiral Stansford returned to Washington some weeks ago, and Harris remained to continue the investigation.

FATAL SHOOTING TAKES PLACE IN RURAL CHURCH

TAHLEQUAN, Oklahoma, July 7.—As the result of a dispute over the management of a Sunday-school class, which started during church services at Dykes chapel near here, Henry Sanders was shot and killed and his father, Matthew Sanders, former sheriff of Cherokee county, was probably fatally stabbed.

SAN DIEGO, July 7.—By the overturning of an automobile near Ocean Beach Mrs. Ethelyn C. Masters, daughter of John C. Bradley of Los Angeles, was killed almost instantly. W. P. Baker, a local merchant, and W. T. Lakin, a traveling salesman for a Los Angeles firm, were the other occupants. Baker was badly injured but his recovery is doubtful. Lakin wandered away in a dazed condition and was found later in the desert, miles from the scene.

Woman Battles With Husband in Duel With Knives

DENVER, Colo., July 7.—Challenging her husband to a "war of wits," Mrs. Vincenta Palacios last evening made good her defense in a duel with knives. The accusations were made against her by Samuel Palacios. The police, who had been summoned by the neighbors, broke through the locked doors and separated the combatants. Both received many, but not dangerous, wounds. According to the story told to the police, the combat was deliberately arranged for the purpose of proving whether the accusations of unfaithfulness made by the husband were false or true.

WAR STUDENTS TO SEE MARKSMEN COMPLETE

MONTEREY, July 7.—Plans are being made by the officers in charge of Camp Murray to give the young men of the war department's first

year school and college students every opportunity to witness the big semi-annual rifle and revolver competition of the western department of the army that begins at the Presidio of Monterey on July 14.

Lieutenant Colonel Walter K. Wright of the Twelfth Infantry will be the officer in charge of the competition. It is understood that the contestants will include two commissioned officers from the department, all distinguished marksmen and distinguished revolver shots from the various regiments to compete and one enlisted man from every company in the department.

WILL GIVE CONCLUDING LECTURE ON EVOLUTION

The last in the series of illustrated lectures on Evolution, given by Professor Maynard Shipley, under the auspices of the Popular Education society, will be given Tuesday, July 8, at 8 p. m. at Hamilton auditorium, Thirteenth and Jefferson streets, the subject being "The Pedigree of Man."

HAS POCKET PICKED ON STREET CORNER

SAN FRANCISCO, July 7.—Charles Radig, of 174 Third street, lost \$55 at the hands of a pickpocket near his lodgings at a late hour last night. He told the police that he suspected a woman who stood near him in a crowd on a street corner.

KOREAN CONSPIRACY TRIAL CONCLUDED

TAI-KU, Korea, July 7.—The trial before the military court of the six Koreans charged with the attempted assassination of Governor General Terachi, was concluded yesterday. Judgment has been deferred.

BRAZILIAN ENVOY EN ROUTE FOR CHICAGO

WILLIAM, Ariz., July 7.—Dr. Laura Muller, Brazilian special envoy, left today for Chicago, accompanied by his suite and the United States government representative. The party will arrive in Chicago Wednesday morning and leave the same afternoon for New York.

CONGRATULATE PARENTS UPON ARRIVAL OF GIRL

Congratulations are being received by Mr. and Mrs. J. J. Cox upon the arrival of a little daughter in their home last Saturday afternoon. The family has a wide circle of friends in the bay cities who are interested in the pleasant news. Both mother and child are doing well.

RABBI MAX JUSTER DEAD IN MINNEAPOLIS

MINNEAPOLIS, July 7.—Rabbi Max Juster, prominent in the Zionist movement and the Jewish activities abroad, died at the home of relatives last night.

TWO MEN KILLED

CHAMPAIGN, Ill., July 7.—Two men were killed and two others seriously wounded in a duel here yesterday between the police and a bootlegger.

Ray Williams, the bootlegger, and Thomas Dodsworth, a policeman, were the wounded.

Albert Keller, chief of police, and Oliver Harding, a bystander,

WOMAN'S CHANCE FOR LIFE SMALL MRS. TONSING CANNOT SURVIVE

MRS. JOSEPH TONSING and her husband FRANCIS TONSING, whom she murdered following a quarrel in Richmond, Saturday night.

MRS. JOSEPH TONSING and her husband FRANCIS TONSING, whom she murdered following a quarrel in Richmond, Saturday night.

RICHMOND, July 7.—Mrs. F. I. Tonsing, who shot and killed her husband, Francis I. Tonsing, at their home at 545 Sixth street, this city, Saturday night, and then fired another bullet into her own body with suicidal intent, must in all human probability die of the wound, according to statements made today by the attending physicians at the Abbott hospital. The doctors say, however, that there is a bare possibility of her having a chance for life, but that it is very remote.

There are no new or startling developments in this sad domestic tragedy today, except that the mother of the murdered man, Mrs. C. Tonsing, wishes to correct the published statement to the effect that her son and his young wife had frequent quarrels or that he ever gave her cause for jealousy by seeking the company of other women. She states emphatically that the young husband and wife never quarreled, but were a loving and happy couple; that Saturday the wife went to San Francisco to visit an uncle there and that before she got home the husband went to the skating rink to pass the time away, and skated alone and not with any woman.

The home where they resided is a pretty cottage, tastefully furnished, and from all reports has been a happy one. Mrs. Tonsing had lived at Los Angeles, where he was employed in the life-saving service at a beach resort. C. A. Tonsing, a brother, lives at Los Angeles now.

Mrs. Tonsing denied intent to kill her husband. "I pointed the gun at him more to scare him than anything else," she said, "and as he came into the dining room, in my excitement I pulled the trigger. Before I realized what I had done, he lay on the floor before me, dying."

RICHMOND NOTES

RICHMOND, July 7.—Announcement is made today by friends and relatives that Nathan F. Lovence, a prominent young business man of this city, will take Miss M. Thayer as his bride on August 6. Both are well known here.

The Alameda Progress Club of the Steeple district, held its second meeting in the Fairmont school building last evening and discussed its new library, many books for which have already been received.

The skating rink here commenced with last evening to adopt a new rule, that of closing up Sunday evenings to avoid conflict with the church services.

Accompanied by a pretty young bride, Martin Mattern, prominent musician of this city, has just returned from Roxborough, Pa., where he was married to Miss Gertrude Little of that city, on June 28. They are being welcomed by many friends of the groom.

Miss Grace Bassett, a former Richmond girl, with many friends here, was married at the home of her parents in Oakland Saturday evening to J. E. Bishop by Rev. Thomas A. Boyer of the First Christian church of that city.

Richmond Lodge No. 13, Knights of Grand Chancellor A. T. Davis in a body to Pinole next Friday, where the representative of the grand lodge will pay an official visit to the lodge of that town. The local uniform rank will also accompany the others.

There is much speculation today as to who will be elected mayor at the council meeting tonight. The general opinion seems to be that it will be either Congressman J. J. Garvey or C. A. T. Davis.

GIRL DROWNS IN SIGHT OF MOTHER

Freda Rasmussen of Oakland Victim of Treacherous Under Current.

DECKER ISLAND, July 7.—Pathetic circumstances surrounded the drowning in the Sacramento river near here yesterday of 16-year-old Freda Rasmussen, daughter of Mr. and Mrs. P. Rasmussen, of 1321 Adeline street, Oakland. With her mother, the girl was spending a short vacation at the home of Richard Hansen of this place. The girl was a fairly good swimmer and had been swimming accompanied by her mother, she walked down to the river for the purpose of taking a swim. Her mother watched her from the shore. Unfamiliar with the treacherous undercurrents which are in evidence between Embarcadero and Bay Vista, the girl plunged fearlessly into the river and started to strike out. In a few seconds

she was being dragged steadily down by the undertow. She apparently realized her precarious position, for she made a desperate attempt to get to a small boat anchored in midstream. Success attended her efforts, but as she grabbed hold of the anchor chain her strength left her and with a terrible scream for help she lost her hold and disappeared under the waves.

Almost unable to believe her sight, the frantic mother hastened back to the Hansen home in quest of aid. Neighbors

dragging the river for the body. Rasmussen, who is a partner in a soap manufacturing firm, was looking for her phone of the tragedy and immediately left Oakland, arriving here yesterday. He took his wife to their home in Oakland and returned this morning to assist in the search for his daughter's remains.

IS DISTRACTED
Mrs. Rasmussen is distracted with grief from the sudden death of her daughter.

"Freda was our only child," said Rasmussen, "and her mother is in a terrible state over this dreadful occurrence. My daughter had only just graduated from the Alameda High school and she kept books for me at my office. My wife and daughter went up to Decker Island to spend the holidays and had intended to return in a few days."

"The girl was a good swimmer, and the undertow in this portion of the river must be exceptionally strong to overcome her."

DINED; WINED; LOST

TULARE, July 7.—After being winned and dined by real estate men, a man who gave the name of Elwin F. Lewis and who claimed to be a southern California millionaire in search of a \$500,000 land investment, disappeared suddenly. Banks where Lewis claimed to have vast deposits did not know him.

ALBANY TO TAX REALTY DEALERS

City Attorney Allen Prepares Ordinance for Submission This Evening.

ALBANY, July 7.—City Attorney John J. Allen is to present to the town trustees this evening the draft of an ordinance regulating the conduct of real estate agents in the central business district of the city. Trustee George Nickerson is father of the move against the agents. He declares he has received complaints from a number of persons that they have been annoyed by over-zealous agents at the train in Albany on Sundays.

City Attorney Allen's ordinance will provide for the payment by real estate men of a license for doing business in this city, a burden they have not previously had to bear. The city attorney has

on of business under a specific name by any real estate agent is to be taken in his ordinance as evidence of an independent business liable for license.

The trustees also expect finally to pass this evening the resolution awarding contract to the Santa Fe Railroad company for an extension track which was passed to print at the last meeting. The contract was submitted last week and passed upon by the city attorney.

TIBETANS SLAY OWN WOMEN AND CHILDREN

CHENG TU, Province of Sze Chuan, China, July 7.—A large band of Chinese recently surrounded the Tibetan town of Kiang Chen. The Tibetans, before going into battle, killed their women and children, lest they should be captured by the Chinese.

The Chinese, however, ran short of ammunition and the Tibetans repulsed them on all sides with heavy losses. One hundred Chinese were drowned while fording the river.

HOW THE TROUBLE STARTS

Constipation is the cause of many ailments and disorders that make life miserable. Take Chamberlain's Tablets, keep your bowels regular and you will avoid these diseases. For sale by Osgood Bros. Drug Stores.

Doctors' Opinions About POSTUM

Are best expressed in their own words

Writing under date of May 13, 1913, one physician says:

"From past experience I have become a strong friend of Postum. I am now advising its use over that of coffee altogether, and find that most of those who give Postum a trial become users of it. It is, however, sometimes very hard or impossible to get folks to purchase something when they don't know anything about it, and don't want to throw away money on a chance of liking it."

"Now, it occurs to me these people are not to be criticized for such feelings, but at the same time I am sure many of them would become friends of Postum if they could but have a sample of it placed in their hands."

"If you think this is a good suggestion, and will send me samples from time to time, I will see that they are placed among my patients where they will do the most good, for I believe it is to their interest to drink Postum rather than coffee. Postum is used in our home, but we buy it of our grocer, and we expect to keep right on doing so."

Thousands of coffee drinkers are victims of headache, nervousness, biliousness, heart trouble and indigestion, without knowing the cause.

More and more, physicians are naming coffee as a common cause of these ills. Not every physician, however, finds time to send a sample following his prescription of

INSTANT POSTUM

If your physician recommends that you "stop coffee," or your own distress suggests a change, send your name and address with 2-cent stamp (for postage) to Postum Cereal Co., Inc., 300 North Michigan, and a five-ounce tin of the new food-drink—Instant Postum—will be sent you immediately. Nothing is so convincing as the happy results of

RICHMOND MAN AND SAN
PABLO WOMAN ARRESTED
RICHMOND, July 7.—When Officer Jennings of the local police force and Constable J. G. Molozzo of San Pablo last evening visited the room which had been taken earlier in the evening by Frank McCarty, for whose arrest a warrant had been issued in San Pablo, on a charge of defrauding an luncheon, they discovered a woman companion, Edna Molozzo, of that town, with him.

McCarty and the woman were taken to the police station, where the man was booked on the charge preferred against him and the woman held pending a further investigation of the case. She is said by the police to be from San Pablo.

Your Telephone Expert

THE switchboard operator who answers your telephone call has a mission in life—her mission is to serve you.

She has at her finger tips the most modern telephone equipment in the world. Quickness, accuracy and courtesy are her essential qualifications.

Frequently she is called upon to act quickly in emergencies when courage and presence of mind are required.

It is as essential to good telephone service, that each Bell Telephone operator should be healthy and happy as it is that every part of the equipment of that great intercommunicating system should be in good working order.

In the Bell system 70,000 operators make connections which furnish clear tracks for 26,000,000 telephone talks each day.

Every Bell Telephone is a Long Distance Station

DEBT CAUSES MAN TO END OWN LIFE

Proprietor of Union Hotel In-
hales Gas After Going
Through Accounts.

After figuring out his accounts to es-
timate his indebtedness to various people,
William Timpe, proprietor of the Union
hotel, 1356 East Twelfth street, committed
suicide yesterday morning by inhaling in-
flaming gas in his room.
Timpe was found lying on the floor by
his wife, who, while making a round of
the house putting out the light at
daybreak, detected the odor of gas coming
from his room. Her screams aroused J.
E. Tavel, a lodger, who notified the police.
According to Mrs. Timpe, her husband
said he wanted a good night's rest and
asked her to take charge of the hotel
while he went upstairs to sleep in one
of the rooms. At 11 o'clock, she said, she
took him up a bottle of gas and found
him dead. At that time he was nursing
out accounts and appeared despondent.
He told her he would soon go to sleep.

MADE PREPARATIONS.
Careful preparations were made by
Timpe. All openings were stopped up and
he lay down on the floor after turning the
gas on.
Timpe bought the hotel a year ago. Af-
ter expending \$1000 in refurbishing and
altering the place he failed to do the busi-
ness he expected and had been greatly
worried over financial difficulties.
The remains were removed to the
mortuary. Besides his widow several grown
daughters survive him. He was a native
of France and was 45 years of age.

FRIEDMANN SERUM AGAIN DISCREDITED

PITTSBURG, July 7.—Friedmann's tur-
bid serum, as a quick cure for tuber-
culosis and a long-awaited boon to hu-
manity, was discredited in a report an-
nounced yesterday of a commission of
four Pittsburgh physicians appointed to
investigate the effects of the serum upon
Attorney, David S. McCann of Pittsburgh,
the first American patient of Friedmann,
who went to Berlin to take the cure.
The commission found that the treat-
ment was not a quick, positive nor abso-
lute cure for consumption, and the ex-
travagant claims made for it are not
borne out.

CROSS WILL SHINE ON TOWER ABOVE CHURCH

SAN FRANCISCO, July 7.—A large
electric cross, which will throw its
beams at night far across the bay and
be discernible to incoming travelers to
San Francisco, will soon be topping
the tower of old St. Mary's church
above the glowing lights of Chinatown
at California and Dupont streets.
The Paulist fathers, in their month-
ly church calendar, have announced
that the cross will be installed.

LATEST NEWS FROM OUTSIDE TOWNS

WORK BEGINS ON BANK BUILDING

First National of San Leandro
Soon to Have New
Structure.

SAN LEANDRO, July 7.—Excavation
work has been commenced on the site
to be occupied by the new First National
bank building at the corner of East Four-
teenth street and Estudillo avenue. P. P.
Quinn, a San Francisco contractor, has
undertaken to complete the construction
of the building.
The building is to be a four-story
structure, and will include the furnishing, heating,
and other details.
There were no bidders for the con-
struction work. The excavation is for the
foundation, and a large basement on the
East Fourteenth street side. The First
National building will be one of the finest
business blocks in town. It will be
built of re-enforced concrete, and will be
fireproof.

CLUBS BOOST FOR BROADMOOR SCHOOL

Organizations Ask That Struc-
ture Be Built for Primary
Classes.

SAN LEANDRO, July 7.—Residents of
north San Leandro are eagerly awaiting
an answer to the petition they presented
to the Superintendent of Schools, George W.
Fickel, asking that a school be built in the
Broadmoor district. The newly formed
San Leandro Annex Improvement Club,
and the Broadmoor Mothers' Club have
joined forces in petitioning for the school.
\$6000 is sought for a primary school.
School children in the Broadmoor dis-
trict, say the petitioners, are in danger
of being run over by trains and cars in
walking to the grammar school in San
Leandro, and an annex school would ob-
viate this risk and would also be a great
convenience.
The following officers and members of
the two clubs are taking a leading part in
the endeavor to secure an annex school:
F. B. Graner, George A. Edgar, A. J.
Tained, two for persons each, and
all the passengers were injured in
some manner. Park officials were un-
able to explain the cause of the failure
of the safety devices designed to pre-
vent just such an accident.
Frank Leclaire of Manhattan, an-
other of the victims, died in the hospi-
tal to which he had been taken.

FRUITVALE MAN FOUND DEAD BESIDE HIS BED

FRUITVALE, July 7.—John Dowell,
72 years of age, of 461 Damuth street,
Upper Fruitvale, met a lonely death yester-
day morning. Dowell, who lived alone in
the house, was found dead beside his
bed by Mrs. H. Steinhilber, a neighbor,
who had become alarmed by his nonap-
pearance.
The old man had complained yesterday
about pains near his heart, and is be-
lieved to have dropped dead while pre-
paring to go to bed. His son-in-law,
George A. Wisman of Emeryville, was
notified.

TOMATO GROWERS WELL SATISFIED WITH PRICES

HAYWARD, July 7.—There is a bright
outlook for tomato growers in the dis-
trict, and good prices are anticipated for
the crop. It is stated that localities are
being contracted for at \$12 per ton on
board cars. This is looked on as a satis-
factory price, as tomatoes generally bring
from \$6.50 to \$7.50 per ton.

At Local Playhouses

ORPHEUM.

"One-night stands," their trials and
tribulations, and the many other
features in a clever sketch presented at the Oak-
land Orpheum as one of the headline
acts on the bill this week. "The Ward-
robe Woman" is the title of the act. It
shows the audience the stage side of a
traveling troupe, and Miss Zaida Sears,
who has the lead in the piece, gives a
picture of an actress on the other side
of the footlights as well as on the stage.
Walter Young takes second lead,
enacting the property man. The lines
are witty and well delivered, and the
whole act is one of the most pleasing
seen at the Orpheum in some time.
G. S. Melvin, a comic sent with a
number of Scottish songs and dances
proved a popular feature on the new
bill yesterday. The Five Musical Ger-
mans, featuring Katherine German and
Bertie Klein presented a musical offer-
ing. Frank Cronin and Ernest Adwell,
singers, were heard to advantage, and
the Gypsy Trio, Joe Jackson, the "Euro-
pean Vagabond," the Rotters, German ac-
robats, and the Wildes, in shadowgraph
creations, rounded out the bill. The mon-
ey pictures talked, as usual, at the Or-
pheum.

PANTAGES

Ruth McKenzie, daughter of Professor
McKenzie, who has been making a tour
debut at the Pantages this week. Miss
McKenzie has a pretty voice and sang
several songs. Many friends were in the
house to applaud her efforts.
One of the hits of the bill is Willie
Zimmerman, a clever and versatile actor.
Zimmerman imitates famed musical con-
ductors, and his impersonations of Gus-
tavo Verdi, John Philip Sousa and Os-
car Hammerstein are especially good.
Klein and Dismore presented a "Jew-
el act" which included a little juggling and
much comedy. This act featured a
screaming finale, with two children and
a saw-saw machine. The "Ferry Wheel
Girls," a circus act, was spectacular and
featured a number of difficult tricks.
Harry Holman and his company appeared in
"The Merchant Prince," a lively skit.
Marks and Rosa sang and danced, and
the bill closed with comedy motion pic-
tures. The orchestra, under the direc-
tion of F. W. Westbrook, and the
Saxons' dances from "Henry VIII" during
the pictures.

COLUMBIA

"The Haehers," the new Columbia of-
fering, proved an immediate hit yester-
day as presented by Ben T. Dillon and
Wol King. "Live" comedy throughout,
amusing situations and catchy music, to-
gether with novel scenic, lighting and
revenue effects made the show a
talking.
The play dealt with the adventures of
Mike and Ike in Europe, revelling in
society, love affairs and champagne. The
usual line of trouble befell the twins.
Max Steiner, the Oakland comedian,
who was to have been in the cast, was
unable, on account of a severe attack of
rheumatism, to appear. His place was
taken by Ernest Van Felt, who was, at
a moment's notice, forced to shoulder
this, as well as his own part.
The musical numbers included several
new Eastern hits. Blanche Trelease,
Charlie Reilly, Maude Beatty, Mattie
Townsend, Al West and all the Colum-
bia favorites were seen in congenial
roles. Miss Townsend and Miss Beatty
both scored heavily in song numbers.
Elsinore Faye, Millie Pedro and the Gin-
ger Girls appeared in "La Gaze Folle-
lette," a dashing Parisian number, which
included clever dancing.

IDORA PARK

The Idora Musical Comedy company
will enter upon its sixth successful week
tonight in the open-air amphitheater in
"The Isle of Spice," a clever and pi-
quant musical mixture not heard in the
bay region for several years. The com-
pany played to packed houses yesterday
afternoon and last night in "Glorio-Glo-
ria," which proved one of the big hits
of the current season.
Over 20,000 people from San Francisco,
Oakland, Berkeley and Alameda visited
Idora park yesterday. It was a joyous
crowd of marionettes. The big pleasure
park has come to be a beautiful play-
ground for grownups and youngsters
alike, with some 30 or more great me-
chanical toys and a bewildering bunch
of animated dolls to make the place a ver-
itable fairland of fun. From the "race
through the clouds" to the merry car-
ousel, the joy throng wound its way,
the happy throng of "old and young" as
the pleasure seekers had their will.
The big canopied amphitheater will be
the drawing card during the coming
week, when Ferris Hartman appears as
Bomponka, sixty-seventh king of Nicobar,
the "Isle of Spice." Hartman is in his
element in this farcical role, and is
fully seconded by George Zinner and other
members of the cast. Miss Mindel King-
ston will appear as Teresa, the little
maid of Nicobar, and Lawrence Bowes as
the young Lieutenant Ketchall of the
United States navy.

OAKLAND PHOTO

"The Trapper's Mistake," a strong
Pathé drama in two reels, is the feature
of the Monday-Tuesday program at the
Oakland Photo Theater. George Geb-
hart, Lillian Wiggins and "Baby" Violet
star in this crackling frontier photo
play. The trapper and his wife have a
little misunderstanding and the latter de-
cides to leave him. She writes a note of
farewell, but is stopped by her "Baby"
Violet at the door. She, however, forgets to
tear up the note, so when the redskin
caught her and carried her off the trapper
naturally thought she had run away
with his best friend.
A good one-act, Hawk Mot-
is one of those instructive and intensely
interesting historical studies by the
Pathé Theater, and is a real treat.
It is made to the ruins of ancient Greece
to the city of Athens.
"One Good Joke Deserves Another" is
a Vitaphone comedy in which April
Foster, the actress, gives everybody a good
laugh to laugh. "Hill Sports in Hanks"
being completed the reel.
"The Suburban Show" is another of
those exceptionally strong dramas which
the Pathé company is releasing. It
is a story founded on the life of a street
and tells of the life of a street
and tells of the life of a street.

TWO DEAD, THIRTY HURT IN WRECK

Roller Coasters in Rear-End
Collision At Pleasure
Park.

NEW YORK, July 7.—Two men
were killed and between twenty and
thirty persons injured in a rear-end
collision of two trains last night on a
roller coaster at Palisades Park in
New Jersey, across the Hudson river
from up-town New York. Arthur
Olson of the Bronx borough, died soon
after being extricated from the wreck-
age. Of the injured two are not ex-
pected to live. The cause was an ac-
cident of broken bones and internal
injuries.
The accident occurred after the first
train of two cars had ascended the first
incline and descended to the dip
beyond, where it stopped when the
electric-propelled cable failed to carry
it up the next slope.

top of the first incline and dashed
down the dip into the stalled train.
The occupants of the two trains were
thrown from their seats, many falling
fifty feet to the ground.
The cries of the injured caused a pa-
nic in the park and among the in-
jured were many who rushed to the
scene of the accident and were crushed
in the jam. Thirteen of the seriously
injured were taken to near-by hospi-
tals.

REPORTER UNEARTHS MAN WANTED AS MURDERER

LOS ANGELES, July 7.—Jacques Nay-
vatte, a Phoenix (Ariz.) reporter, who
has an international reputation as an
aviator, with membership in the French
Aero club, and with his pluck, courage
and daring in many American meets,
yesterday proved himself a successful de-
tective.
Charles Harris, special officer for the
Arizona Eastern railroad system, was
murdered while in the discharge of his
duties about midnight six pistol shots
were heard near the tracks. Only three
of the shots had been from his pistol.
He had died from a knife stab in the
neck. That he had wounded at least one
man was shown by a trail of blood that
led west.
At the dawn of day the ground again
was under scrutiny by Nayvatte. Fol-
lowing the trail Nayvatte became a witness
found Frank Garcia, faint from loss of
blood from a severe bullet wound in the
leg, unconscious, received in the night
with the railroad officer. He did not
deny participation in the case, and is be-
lieved to have been the principal actor.

MAY NAME SHEPARD ON CONVENTION BUREAU

SAN FRANCISCO, July 7.—That
Dr. Irwin Shepard for 20 years presi-
dent of the National Education Asso-
ciation, has accepted the appointment
of national secretary of the bureau of
conventions for the Panama-Pacific
exposition is indicated by dispatches
emanating from Winona, Minn., his
home. These dispatches are also con-
firmed by others coming from Salt
Lake City, where he is now in conference.
Dr. Shepard, aside from being sec-
retary of the National Education Asso-
ciation, has achieved rank as an
educator, having been president of the
Winona Normal School, later a pro-
fessor at the University of Minnesota.
He is a warm personal friend of
George E. Vincent, now president of
that institution. In the literary field
Shepard has become prominent espe-
cially in educational matters. Dr.
Shepard several years ago was
decorated by Congress when he was
awarded a medal for services ren-
dered in the Civil War.

GATHER FUNDS TO MEET VALLEJO WRECK CLAIMS

VALLEJO, July 7.—District Attorney
Raines stated last night that he had not
as yet fully made up his mind as to the
course he would pursue in regard to the
San Francisco, Napa Valley & Calistoga
electric railroad upon whose lax system
a coroner's jury recently placed the blame
for the wreck near here in which 12
lives were snuffed out and a number of
passengers injured, and he intimated that
his probable course would be to institute
a criminal action against the company.
At the recent meeting of the directors
of the road an assessment on the stock
of \$5 a share was levied, which is pay-
able on or before July 25, the purpose
being to cover the heavy expense in-
curred in settling claims and fighting
suits.

ANOTHER MURDER.

BLOOMINGTON, Ill., July 7.—Peter
Canella was found shot to death in
Streator, with ten bullet holes in the
body, head, all striking vital spots.
He was an Italian.

of the Heated Eastern Term.

The entire area of the United States east of the Rocky mountains has passed, during the last two or three weeks, through a heated term of exceptional intensity, the end of which has been reached. The mortality and the prostrations due to heat there have been unusually high, and the distress and discomfort to inhabitants of the region affected have been unprecedented, according to all accounts. While some persons devoted to the science of astronomy have for generations past claimed a relationship between weather conditions on the earth and the appearance of spots on the face of the sun, the central luminary of our solar system, the relationship has never been established, and, in all human probability, never can be, for the simple reason, if none other existed, that the effects do not occur simultaneously with the discovery of the solar spots. Predictions of the effects of sun spots visible through the telescope or by the naked eye on terrestrial weather are given a wide enough

possibility, like the haphazard forecast of Poor Richard's Almanac, which the unsophisticated farmer was wont in former generations to accept as his guide—"at this time, look for rain." But the credulous are still numerous enough on earth to accept the predictions of these bogus weather prophets in good faith. And some of these self-constituted prophets are now claiming that the heated term through which a small section of the earth's surface lying between the Rocky mountains and the Atlantic ocean has just passed is a verification of predictions made by them months ago among numerous others based on the same solar phenomena which have not been fulfilled. Heated terms come with annual regularity to the territory just afflicted and are due to natural conditions.

Of course, the greater mortality and distress this year, as compared with previous years, is due, in a large measure, to the increased congestion of population, which is growing more rapidly in the great centers of human activity east of the Rockies than at any previous period in the history of the republic. The effects of the recent heated term are intensified simply because of its longer duration than the average of such visitations, which are, in no sense, uncommon at this time of the year in the region east of the Rocky mountains.

But the point in which California and other Pacific states are more particularly interested is that, as usual (sun spots or no sun spots), they have not suffered in any sensible degree from the recent heat wave which has swept over the continent. None of the Pacific States has suffered in any appreciable degree from the warm weather which has prevailed on this coast during the past few days any more than under similar periodical experiences in the past. It is the season for warm spells in this State, and nothing out of the ordinary run of summer weather here has occurred. It ought to make an exceptional impression, however, on the minds of the people living in that section of the country east of the Rockies regarding the superiority of our climate, at the present time particularly, inasmuch as the approach of the opening of the Panama-Pacific Exposition of 1915 is holding this State so conspicuously in the limelight before them.

Effects of a Sane Observance of the Fourth

The 1913 Fourth of July safe and sane celebration of the anniversary of the independence of the United States as the result of Great Britain's insistence during the reign of George III to enforce on the New England Colonists taxation without representation, against which the latter successfully revolted, has been again emphatically illustrated. A compilation of the casualties of the day (of which the Chicago Tribune has made a specialty in the movement which it inaugurated over a decade ago, and which has been strongly supported since by the newspapers of the country) shows that there were only sixteen deaths and 555 injured throughout the United States following the display of fireworks and the discharge of other explosives recorded up to the hour of midnight of the Fourth this year under the safe and sane regulations which have been generally enforced everywhere throughout the country. The story of eleven years of the effects of the reform in the methods of celebrating the national holiday is graphically told in the following tabulation of casualties:

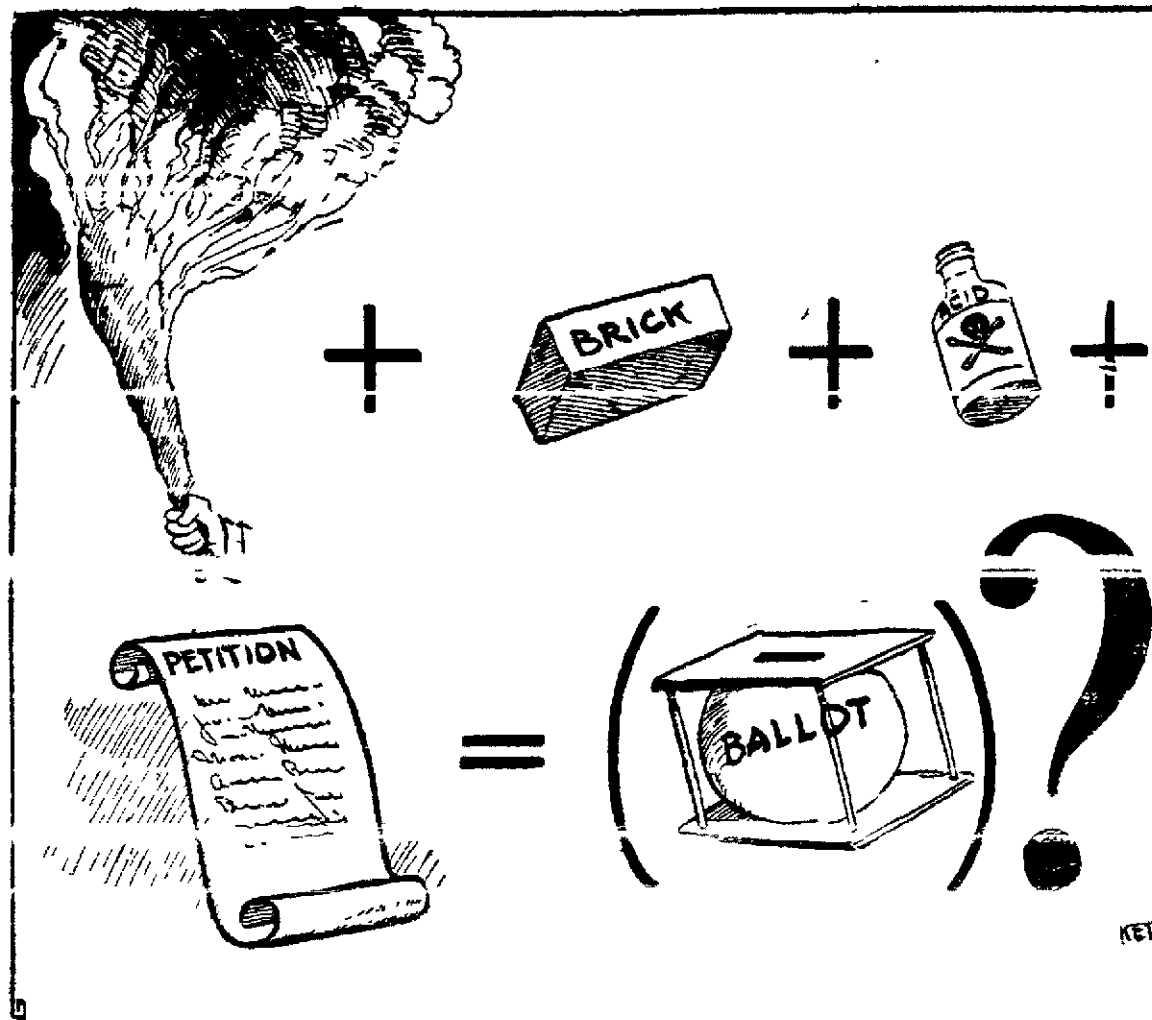

Year.	Dead.	Wounded.	Total.
1903	466	3,983	4,449
1904	183	3,986	4,169
1905	182	4,994	5,176
1906	158	5,308	5,466
1907	164	4,249	4,413
1908	163	5,460	5,623
1909	215	5,092	5,307
1910	131	2,792	2,923
1911	57	1,546	1,603
1912	20	659	679
1913	16	365	381

Totals for 11 years 874 38,069 38,434

Not a death has been recorded as the result of the present form of celebrating the national holiday in any of the nine principal cities in the Union. All of them have been exempt from fatalities during the eleven years that a safe and sane policy has been enforced. In nearly all of them a marked reduction in the number of the injured, as compared with 1908, is recorded. Cleveland, Kansas City and Los Angeles have this year an absolutely new record even in the list of injured. Philadelphia stands this year, as it did five years ago, at the head of the list of injured with a total of 113 against 256 injured in 1908. The balance sheets of Kansas City and Los Angeles are absolutely clean, and Chicago had no deaths and only eight injured this year, against twelve deaths and 114 injured in the celebration of the national holiday five years ago.

The display of patriotism has not diminished in the slightest degree. In every city in the country it has found a vent; but it has been in a safe and rational form. In all cities regulations against the unbridled discharge of noisy and destructive bombs, fireworks, the letting off of skyrockets and the burning of effigies have been rigidly enforced. And the general prohibition of the sale of fireworks and especially of the toy pistols which were responsible for the majority of the injuries in 1908, has been marvelously effective.

MILITANT ARITHMETIC

-BY THE OAKLAND TRIBUNE CARTOONIST

in which the anniversary of American independence is celebrated. The labors and anxieties of the former have been reduced to a minimum. As a result of a sane celebration of the Fourth in Oakland last Friday the fire department enjoyed practically total freedom from the strain usually imposed upon it on previous Independence days. The losses of the fire insurance companies, on the other hand, were likewise reduced to the daily normal of the year. In the United States the total losses by fire last Friday, covered by insurance policies, were undoubtedly reduced by many millions of dollars as compared with former years during the past quarter of a century owing to the safe and sane policy of celebrating the national holiday, which has become, in all probability, permanently fixed for the future. The only real sufferers by the adoption of a safe and sane Fourth of July celebration are the manufacturers of fireworks and toy pistols, and they are so few in number and represent such an infinitesimal quantity in the equation of public interests that they cut no figure in the final analysis.

The American citizens resident in Moose Jaw, Saskatchewan Province, Canada, exhibited a lack of taste and national pride and amity when they attempted to make a Fourth of July demonstration last Friday with a public street parade accompanied by the waving of American flags, thereby taunting the Canadian population and inciting a riot. Canadians are the most intensely loyal of British subjects and the quickest to resent any unfriendly display, and the parade of Americans at Moose Jaw was evidently not made with friendly intentions, hence the riot it invited followed. The British people are notably tolerant, but they cannot be expected to refrain from resenting what was apparently designed to be a national insult. A public parade of Britishers flaunting the British flag in open defiance in any American city would meet with the same kind of treatment at the hands of its citizens should the British residents attempt to carry out such a program. Americans have flocked into Canada by the hundreds of thousands from the Northern States during the past few years, to settle on the public lands in the western provinces which Canada has thrown open to settlement on generous terms to all nationalities; but a grave mistake has been committed if the invitation has been construed as meaning an opening for a peaceable conquest of the country.

SINGULAR THINGS

Hallstones that have been falling in various parts of England have been compared in size with marbles, pigeons' eggs and so on. But no claim to record magnitude is made for any of these. It would be difficult to determine what the record is. There are numerous pretty well authenticated cases of hallstones weighing half a pound and more, but claims far beyond that are made. Stones of six or eight pounds were said to have fallen in Namur in 1715. The missionary Father Hue records the fall in Tartary in 1848 of a block of ice as long as a milestone, which took three days to melt. In May, 1862, a Hungarian village reported an 1100-pound block, requiring eight men to move it. And in Tippecanoe one as big as an elephant was said to have fallen near Springgastown. According to Prof. D. W. Edgworth David of the University of Sydney, Australia, the deposits of coal discovered by the Shackleton and Scott expeditions in the Antarctic will perhaps prove to be the largest unworked coal fields in the world. Wild of the Shackleton expedition discovered seven seams of coal outcropping in a great cliff face of sandstone and shale. The thickness of these seams, inclusive of a few clay bands, was seven feet. Specimens chopped out by Vivian with his ice axe have been analyzed at Sydney and show the coal to be of workable quality. Scott's geologists traced this field for a distance of 650 miles extending northward from the head of the Beaufort glacier. "Shortly after the Galvani's invention, came out he visited America, and with a letter of introduction called upon Dr. Doane, medical officer to the Bank of New York," writes a correspondent of the London Chronicle. "He found the family in distress at the death of the infant son. Galvani asked to be allowed to try his battery, the child was revived was christened Galvani Doane, and is probably alive today at any rate he was three or four years ago. His father was a cousin of Longfellow."—Chicago News.

A COURAGEOUS GOOSE

John Muir tells in his "Story of My Boyhood and Youth" about many of the birds of the mountains and especially of the common gray geese which would arrive hungry and wing-worn, with nearly an inch of snow on their backs. But they never lost the "courage" and the hunter who was hunting for them arrived, for no one could approach them afterward. "I shot about twenty birds. I never got but two, but of them at one so called lucky shot. When I ran to pick them up one of them flew away, but as the poor fellow was nearly wounded he didn't fly far. When I caught him after a short chase he uttered a peculiar cry of terror and despair, which the leader of the flock heard at a distance of about a hundred yards. "They had come off in frightened distress of mind, and had no intention of being shot."—Chicago News.

One woman in this country, Mrs. D. Harry Hammer of Chicago, has made a collection of cartoons of Uncle Sam, and has 24,000 of them. She began making her collection in 1902, and the number of such cartoons appearing today is very large. She is now sending them to the Library of Congress.

Twenty Years Ago Today

The city has seized the Southern Pacific property at the foot of Broadway, following a legal opinion by the city attorney's office. This disputed land will be held by the community at all cost, and the police have already been delegated to watch the antics of the corporation men. The rails were torn up and the milling stock moved along to a point past the limits of the property. Legal proceedings will be resorted to by the company. The land will now be open for public use.

The city council has decided to make Berkeley a city of the fifth class. The new Berkeley board of education has selected J. W. Richards as president and George C. Woodson clerk. California has secured the next convention of the Christian Endeavorers according to a telegram received from H. J. Waters, chairman of the Alameda County Christian Endeavor convention who is at present in Montreal, where this year's convention is being held.

The installation of officers of Piedmont Parlor, N. S. G. W., will take place on the 15th inst. Deputy District Grand President Frank A. Smith of Centerville will officiate.

The suicide of a wealthy Swiss couple because they were too rich will doubtless give a fresh impetus to free libraries in America. With mercury tablets so cheap and plentiful, there seems to be no reason why any one should have appendicitis these days. It has been ascertained that the decision of the New York grave diggers not to go on a strike was reached only after a stiff debate. We learn by London cable that a lord has married an actress, but why such commonplace information should be cable is not understood.

There will be a careful scanning of the lists showing the Washington club that promise to respect the new excise law. Systematized crime has finally reached in the gunmen being put on a salary basis, formerly they worked by the job. A winning of \$7500 at Windsor Castle by the grand duke is called "high play," but what would Charles James Fox have thought of such pickers?

If those ingenious Japs who are trying to grow taller could add to their stature by taking thought of themselves, most of them would be about 5 feet high or less.

Pittsburg railroad officials say that tight skirts cause frequent accidents, yet many a poor chap has been run down while his head was turned for a quick look.

The Rev. C. H. Dodd advises university students to get all they can. Thanks, Jim, how?

Governor Eberhart says it was a great victory for Minnesota, but Bob La Follette regards it as a mere Wisconsin over-throw.

A member of parliament has resigned his office after having been cited in a divorce case. But those British M. P.s always did take themselves seriously.

Studying how to get the most wealth out of the corn crop. Pushed to a logical conclusion, their plans will force the Kansas farmers to liquidate.

The triumph of diplomatic notes is again signified by the manner in which the Japanese controversy was quickly smothered down to the third page.

STORIES OF PLACES

One of the most sudden cases of matrimony is reported from Bulawayo, South Africa. There a young couple presented themselves one Saturday afternoon on the magistrate's tennis lawn and interrupted the game by demanding to be married. The magistrate refused, declaring he would not have his only holiday spoiled, his office being closed for the day. The young man insisted, they said that they were trekking at once to take possession of a farm a hundred miles up country and must be married before they set off. "Why on earth," said the magistrate, "did you not come to see me this morning for the first time?"

"But please, sir, we only met at lunch for the first time."

Belgian dogs that are harassed to carts often work themselves to death.

Old-time Scotchmen realized that brevity is the soul of legislation. For instance, King James VI. Parliament passed an act which said simply "No man shall enter any place where there is hay with a candle unless it be in a lantern." This is probably the shortest statute ever passed. In fact, one small volume is enough to hold more than two centuries of Scotch legislation.

TRIPLE CANAL PROJECT

The Panama canal is conspicuous, but there are other contemporaneous conquests of nature by man which fire the imagination. In New York there is the remade Erie canal. In Switzerland there has just been opened a nine-mile tunnel under the Bernese Alps. In Colorado work has begun on the six-mile tunnel for the Moffat railway between Denver and Salt Lake City. In Egypt the Assuan dam, and in Mesopotamia the great dam at Basra, are being built. In the Catskills is the Assan dam which will give pure water to New York City at an initial cost of \$100,000,000. In India is the triple canal project, a work which will be more than a hundred miles long.

The Triple Project alone has cost nearly \$100,000,000. It is a success that it returns seven and a half per cent upon the investment. The British Raj has expended altogether upon irrigation in India \$200,000,000.—Minneapolis Journal.

MEN AND WOMEN

Miss Peggy Webling of London has scored a big success with a novel and a play in the same week. Miss Florence High of New Providence, N. Y., has not mislaid a word in school for four years.

With whistles tooting and sirens screaming the last horsecar in San Francisco started on its farewell trip through the city streets, with Mayor Rolph on the front platform driving.

Gifford Pinchot gave \$3000 through his mother the other day to the sanitary improvement committee of the woman's branch of the National Child Federation, which stands ready to build model tenements as fast as the stock is sold.

While most farmers are working to get a crop of wheat, Mr. O. O. Stuart, of Grant county, Kan., is preparing to plant 50 acres of them as a feed crop. Mr. Stuart says that if the thistles are cut and fed before the stalks on them get hard cattle like them and do well on them.

Alanson B. Warner of the department of anthropology at the American Museum of Natural History, who has spent several years studying the customs and ceremonies of the Indians of Wisconsin and the Northwest has gone to the wilds of Western Canada to live among the Cree Indians.

Dr. Alex. Hrdlicka, curator of physical anthropology of the Smithsonian Institution, has returned to Lima, Peru, where he will resume the anthropological investigations which he began in 1910. These investigations are directed towards ascertaining the various physical types that occupied Peru in prehistoric times.

The valedictorian of the graduating class at Muhlenberg College, Allentown, Pa., is William Lewis Katz, a brick-layer. Besides earning his way through college by working at his trade, Mr. Katz has served as president of the Student Council and as director of the Glee Club and played a star game on the football team.

POINTED PARAGRAPHS

Some men would sit in the shade rather than stand in their own light. Jealousy is the tribute a woman pays to a man's vanity. Contentment may be better than great riches, but it is just as hard to get. If a man is smart enough to fool a woman it is because she wants to be fooled. A married woman's word picture of her ideal man makes a poor portrait of her husband. A corrected man is one who wants to talk about himself when you want to talk about yourself. When a man can travel as far on his nerve as others can on an excursion ticket the railroad is sure to lose money.—Chicago News

BERKELEY ALAMEDA

YOUNG LOVE TRIUMPHS
COUPLE ENDS SEPARATION

MRS. RUSSELL FRANK—Schurz photo.

ALAMEDA, July 7.—Love's young dream has triumphed over the stern hand of parental authority. There is to be no further separation of Russell Frank and his 17-year-old bride, who was Gertrude Frank of Berkeley until she eloped on May 2 with the young musician and was married at San Jose. Reports that announcement proceedings were to be started by the youthful bride's father, were strenuously denied today by the bride's southern husband. Despite his lacking two years of reaching man's full estate, young Frank has shown a firmness of spirit which has apparently won a victory over parental displeasure and parental post-elopement plans of a permanent separation. The bride is still with her parents in Berkeley, but only until she has opportunity to pack her wardrobe and personal effects. Then she is to come to Alameda and join her husband.

Frank says that his bride will be in Alameda tomorrow, or Wednesday at the latest, drumming plans and shipping boxes interfering with her immediate presence in Alameda.

The young couple are to make their home at first at the residence of Frank's parents on Versailles avenue, until such time as Frank can find a suitable location and set up his own domestic establishment. The young man is to continue in his father's music store on Park street. The elopement was a well-planned and strongly-considered affair. The bride was visiting friends at Los Gatos. On the last day of her visit young Frank appeared, ostensibly to escort her home, but the friends were told by the young couple that they would return by way of San Jose. Frank took to Los Gatos by train. He secured a motor car there and the two returned to San Jose and were married. From San Jose they took train to Berkeley and arrived in the college city and Frank coming to Alameda. The secret was closely guarded until a week ago Friday when the bride's family were told. Young Frank went to Boyes Springs in Sonoma county for a few days and upon his return brought his bride to this city. The bride's father promptly took her home. There was talk that the young folk were to be kept apart until they were of age. There were also talk of annulment proceedings being instituted on the ground that both Frank and his bride are minors. Apparently the young people have won a complete victory, for Frank says there will be no further parental opposition.

TEACHERS OF HIGH SCHOOLS CONVEENE IN BERKELEY

Recommend Far - Reaching Changes in Organization of School and University

Prof. Lange Endorses Snedden Type of Vocational School

UNIVERSITY OF CALIFORNIA, July 7.—Recommendations of changes in high school and lower university organization of probable far reaching importance were made by Prof. Alexis F. Lange of the university faculty at the opening session today of the California High School Teachers' Association convention at Bacon Hall. The convention, which is attended by several hundred teachers from all parts of the state, will continue with general and sectional meetings until Friday afternoon.

U. C. GIRL WILL SING IN 7000 COSTUME

MISS ENID WATKINS

BERKELEY, July 7.—As a feature of the California Music Teachers' Association convention in San Francisco this week, Miss Enid Watkins of the class most recently graduated from the University of California will render several of Professor Carlos Trover's Zuni Indian songs. Miss Watkins is to wear a Zuni costume which Professor Trover designed. It is expected the rental will be one of the successes of the convention.

PLAN BIG ALAMEDA CLUBHOUSE IMPROVERS TO BUILD SHORTLY

The Annual Meeting of Club to Be Held This Week.

ALAMEDA, July 7.—The annual meeting of the Alameda Improvement Club, which was to have been held last week, was postponed until the first of the week owing to the Fourth of July holiday. At this annual meeting, plans for the construction of a new business block and clubhouse will be discussed by the club. This club is the only improvement organization in the city owning its own clubhouse. The present building is a remnant of the West End street business section and a business structure will readily earn an excellent income.

DEADLY GASES SLAY GOPHERS

University Professor Tells How Berkeleyans Kill Pests.

BERKELEY, July 7.—The irrepressible gopher which makes annual incursions upon the gardens and lawns of the city, has reduced its energies this year according to the testimony of numerous householders who have declared a general war upon the pest with more or less satisfactory results. The gophers have not continued their depredations to any particular part of the city, though they have been most of a nuisance in the tract properties and the less thickly settled areas, where wide field spaces make their complete eradication difficult.

CITY IS TOLD TO MAKE COMPLAINT

Railroad Commission Advises Alameda to Lodge Protest Against S. P. Company.

ALAMEDA, July 7.—The State Railroad commission, through Secretary C. R. Deitch, advises the city of Alameda to file formal complaint against the Southern Pacific for not instituting the Eighth street cross-town service between Alameda and Oakland. This advice is contained in a letter received today by City Clerk T. C. Coughlin. In answer to a second complaint made by the city council to the commission regarding the delay in instituting this service.

Trading Too Dull to Reflect Market Changes in Prices.

NEW YORK, July 7.—New information that was brought to bear today was unfavorable, but trading was too dull to reflect any marked change in the level of prices. The Harriman group was back. Resumption of gold exports to Europe, the pool bank statement put out during the holiday, the troubled conditions in the Balkans and the failure of Pittsburgh bank tended to depress the market.

Bonds were easy.

Provisions rose with hogs. First sales were to be higher, with September prices \$21.04 1/2 for pork, \$11.77 for lard and \$5 for ribs and corn. Cattle and veal advanced and sheep dropped sharply. Steel, copper and coalers became imbued with the weakness of the Harriman stocks.

Many stocks sold as a result of the Pittsburgh

MONEY AND EXCHANGE

NEW YORK, July 1.—Money on call steady; 2 to 2 1/4 per cent; ruling rate, 2; closing rate, 1 3/4 offered at 2 1/4.

LOS ANGELES, July 7.—The trial of James L. Murphy, charged with the murder of Mrs. Irene Mattis Smith, a chorus girl, in a rooming house, April 2 last, was begun here today in the Criminal department of the Superior Court before Judge Cabaniss of San Francisco.

According to the prosecution, Murphy and his niece, Estelle Moore, who will go to trial July 15 on a charge of complicity in the killing of Mrs. Smith, went to the dead woman's apartments, where they found her and Morris Bohannon, Mrs. Moore's half brother, playing cards together.

Mrs. Smith was killed by a bullet, which the prosecution alleges was intended for Bohannon, of whom Murphy, his uncle, was said to have been jealous because Mrs. Smith preferred the younger man.

Much of today was occupied in obtaining names of prospective members of the jury, which felt the heat extremes and presented an unusual scene by continually fanning themselves with palm leaf fans.

MOTHER DROWNS BABE.
OLYMPIA, Wash., July 7.—Mrs. Frank Hartman, wife of a farmer near Sherlock, 15 miles east of here, drowned her 9-months-old baby in a creek running through the farm and made an unsuccessful attempt to drown herself yesterday. Insanity is given as the cause of the act, which occurred while Hartman was doing the morning chores.

Obstinate Acne Quickly Yields

**Fine Remedy that Clears
Skin of Pimples on Cheeks,
Temples, Sides of Nose
and Chin.**

Acne attacks the glandular structure of the skin, more particularly those tiny glands that secrete fat. And it is here that S. S. S., the famous blood purifier is most active in its influence.

There is one ingredient in S. & S. the purpose of which it is to stimulate the cells in the tissues that they select from the blood the nutriment that makes new skin and thus eliminates all irritants, acids and poisons that inflame the skin. There is a natural tendency of the fine network of blood vessels in the skin to throw off irritation, but where a permanent inflammation

**Maintain Silence During Trial
and Later adjourn for
Luncheon**

SAN FRANCISCO, July 7.—For the first time in the history of California in the superior court, a jury of 12 women sat in judgment on one of their own sex before Judge Frank Dunne this morning. The defendant is Mrs. Bertha J. Williams, and her demand to be tried by a jury of female peers caused a sensation, not only in the suffrage state, but in the country at large. There was a goodly sprinkle of women in this large audience that assembled to listen to the evidence and although a majority of those in the box were married women, there was an abundance of youth apparent and the twelve seats were a mass of color. The jurors were evidently arrayed in their Sunday best and from a distance it looked as though a flower garden had been transplanted to the same. The woman's surroundings in the courtroom.

Mrs. Williams was dressed in a light summer suit. She sat by her attorney and smiled sweetly at the twelve sitting in judgment upon her.

FIRST WITNESS

The first witness was also a woman, Mrs. N. Nannette, Robinson, who claims that Mrs. Williams attempted to extort \$150 through the holding of a trunk belonging to her. Her evidence was listened to by the ladies who seemed to find it no effort to refrain from talking to each other and indeed there was as much silence in the box as though it had

The second witness was a messenger boy, Karl Barber, who had delivered a message from Mrs. Williams and after his testimony an adjournment was taken for luncheon. Judge Dunne smiling at the twelve ladies who sat as close to him as he delivered the admonition from the court that they must refrain from talking about the case between themselves or to others.

CHAUFFEUR AND STRIKER ARRESTED AFTER FIGHT

Charles H. Mann, a chauffeur for the Pacific Gas and Electric Company, and Henry E. Alvimina, a driver who was arrested on charges of disturbing the peace yesterday, along a mob riot occurred Fourth and Broadway. Mann refused arrest and was chased by policemen to J. Thompson. The drivers were treated at the Broadway Hospital.

"This man is charged with a serious offense. Give him the best accommodations you have in the jail," wrote Justice of the Peace John H. Paul of Albany to Sheriff Batnet when Marshal J. Glavin

The result of alleged tampering with electric wires at a carnival held in Allentown during the holidays. Justice Paul J. Handley, who presided over the trial, said bonds. Marshal Glavinovich told Chief Jailer Charles Clark that he would swear to a complaint today but up to noon he had failed to appear and the prisoner is about to apply for a habeas corpus. District Attorney Vandervoort investigated the circumstances of the arrest yesterday. He found that Miller, who resides at 413 Washington street, had taken a concession at the carnival and had several men working for him. His concern was to get the best possible price for the concession on the carnival grounds and it is said that jealousy arose among other concessioners. Miller was ordered to move. In doing so he says that some one cut the wires and he elbowed his way through with the result that the carnival was short-circuited. His arrest followed.

PIEDMONT NOTES

PIEDMONT, July 7.—Rev. Dr. Melro Penny conducted divine services in Mowbray hall yesterday in the absence of the Rev. William Stuckell, the regular pastor. Dr and Mrs Penny leave immediately for Klamath Falls, where they expect to pass a month.

Mr. and Mrs. J. B. Richardson have returned home from their three-week trip in Humboldt county.

W. E. Sharon left last evening for Nevada for a visit of several days.

Miss Playter, Miss Helen Playter, I and Mrs. Murray Johnson have just returned from two months' of travel, principally in the east.

Mrs. Harry Farr, with her two boys are at Idlewild for the summer. Mr Farr has just returned, having gone down to the Fourth of July.

Rolph Miller is rapidly recovering from an attack of malignant typhoid fever.

**PATRIOTIC AIRS HEARD
AT SUNDAY CONCERT**

American airs formed the larger part of the program at Lakeside park yesterday afternoon at the regular Sunday concert. The program was patriotic in nature, in celebration of the Fourth

The program for next Sunday is announced as follows:

Mary—Pagan—Foster...
Carmen—Raymond...
Gladys—Le Belle...
Constance—Stella...
Dorothy—Stella...

By E. C. ...
